## ENCLOSED HOSE REELS

Whenever longer hoses are required it is strongly recommended that hose reels be used. There are several advantages from using hose reels, such as longer hose life, increased safety and improved efficiency. Once installed the hose reel is always available but can be retracted out of the way when not in use. A hose free floor will reduce the risk of accidents due to tripping and will also aid in identification. Hose reels can be installed on the wall or the ceiling or to special frameworks.

### Enclosed reels:

- help keep hose clean
- reduce maintenance
- operate with less noise
- Protect the reel for longer life

### Model # **AR-44205**

Compact: Air / water  
c/w swivel bracket  
included

Model #	Overall Dimension	Max Working Pressure	Application	Size	Hose type
AR-44205	12" x 16"	300	Air/Water	33' x 5/16"	Textile braided Polyurethane

*QUALITY • PERFORMANCE • LONGEVITY*
