BC-905304 1/4" ceramic nozzle for BC-4200

Recommended Media:

- Glass bead
- Aluminium Oxide

WARNING!

Do not use sand or recycled blast media.
Always use recommended glass bead or aluminum oxide.
Failure to follow these instructions will void warranty.

Blast Media: **BC-0400** - 30-40 Grit Glass Bead

A popular media used primarily for dimensionally sensitive applications where tolerance and finish are your main concerns. Perfect for removing medium to light contamination without causing dimensional change, over-stressing, imbedding or pitting. Used widely by automotive rebuilders, die and mould makers on the plating and aerospace industries.
