OILY WASTE CANS

Dispose of oil soaked rags and protect your facility from fires that can start due to: Spontaneous combustion, Sparks, Careless use of smoking material

Model # JR-09200

OSHA compliant Oily Waste Cans are essential whenever solvent cloths and wiping rags are used. Rags and cloths soaked with solvents, thinners, linseed oil, combustible adhesives and other flammable liquids present a serious fire risk when improperly discarded. The specially designed lid opens no more than 60 degrees and stays closed when not in use, isolating contents from fire sources and limiting oxygen so spontaneous combustion risk is virtually eliminated. Round construction and elevated bottom encourage circulation of air around can to disperse heat and reduce moisture build-up and rusting.

A variety of sizes accommodate your specific need - 2Gallon Table Top type and 10 Gallon Floor type with foot pedal lift top. All feature galvanized steel body construction with a durable powder paint finish.

Model # JR-09300

Model #	Description	Cover Type	Outer Dimension	Ship Weight
JR-09200	2 Gal. Table Top	Hand Operated	9 3/4"D x 9 1/4"H	6 lbs
JR-09300	10 Gal. Container	Foot Operated	14"D x 18 1/4"H	12.5 lbs
