## RATCHET TYPE SAFETY STANDS

Safety Stands provide a safe method to support vehicles when performing under car maintenance.

Ratchet type stands are built using heavy gauge steel with large support saddles. They are intended for use in pairs in automotive and fleet service as well as agricultural, construction and equipment service facilities.

Ratchet mechanism prevents lowering when saddle is loaded for safety and convenient carry handle for column release meets A.N.S.I. and ASME specifications Sold and shipped in pairs.

### Features:

- Integral pawl locks ratchet bar securely in place
- Sturdy, welded steel construction
- One piece, multi-position all steel ratchet bar
- Easy one hand adjustment
- Saddle type support
