## Tire Changers

Automatic, Faster, Easy-to-use Tire Changer specifically engineered for high production, oversized, run-flat, and low profile applications.

### High Performance Leverless Mount / Demount Tire Changer

#### “Lift 80” Wheel Elevator

Air operated wheel lift takes the “Grunt” out of lifting larger tire & wheel assemblies up to the clamping pedestal

#### Tilt Back Column

The leverless bead lifter is mounted to a traditional tilt back column that tilts back out of the way when not in use. It also retains your bead lifter diameter and height settings for the balance of the wheel set

#### Leverless Power Bead Lifter

Eliminates traditional tire tools that can damage rim surfaces due to application difficulty, also provides much faster and simplified mount / demount operation.

#### Wheel Chuck Pedestal and Locking System

The wheel chuck is a totally new concept that includes an easy to use height fixing pin that allows 2 height positions, essential when working on large sized regular or reverse mount rims. The unique much simplified locking system, ensures absolute control

#### Air Operated Power Assist Bead Breaker

An invaluable device for mounting / demounting run-flat and low profile tires. The heavy duty disc bead breaker is controlled with the horizontal and vertical air command module to combine the upper and lower bead breaking movements, while servicing even the toughest applications. It also retains your bead breaker settings for the balance of the wheel set

For the ULTIMATE in diverse applications and ease of use in production: the **TC-0555LL**

Model # **TC-0555LL**

#### OPTIONAL EXTRAS INCLUDED:

- Lift 80 Elevator Wheel lift system
- Mobile Helper Arm
- Special 3/4/5 Flange adapter
- IT Bead Blaster

QUALITY • PERFORMANCE • LONGEVITY

## Model # **TC-0555LL** - Automatic Tire Changer with Lifting Lever

**"LL" for low profile / high performance tires**

Tilt back column for improved productivity

Unique adjustable height column. essential when working on large sized regular or reverse mount rims

Helper arm holds bead in place when mounting

Power assist bead breaker for mounting / de-mounting run flat tires and low profile High performance

Foot pedal controlled, Air operated Wheel lift

### OPTIONAL EXTRAS INCLUDED:

- Lift 80 Elevator Wheel lift system
- Mobile Helper Arm
- Special 3/4/5 Flange adapter
- IT Bead Blaster

## Model # **TC-0500LL** - Automatic Lifting Lever

**"LL" for low profile / high performance tires**

The LL System is designed to fit both the **TC-0522** and **TC-0528** without changing the basic features of the machine

Automatic bead lifting lever

Consisting of an air operated automatic Demount head with automatic bead lifting lever, it solves the problems of lifting the bead on difficult tires like run flat and low profile.

Easily and quickly facilitates the demounting of difficult beads
