Tire Changers

Automatic, Fast, Easy-to-use Tire Changer specifically engineered for high production in working with oversized, run-flat, low profile, and performance applications, with the features to protect expensive, high end Aluminum wheels.

Model # **TC-5000** - High Performance Leverless Mount / Demount Tire Changer

H.D Wheel Lift

Air operated wheel lift takes the "Grunt" out of lifting larger tire & wheel assemblies up to and centering on the wheel chuck

Moveable Wheel Chuck Pedestal

An air operated, moveable wheel chuck pedestal with easy to use 3 position height adjustment for working on large sized reversed-well rims

Wheel Chuck Locking System

The wheel chuck is a totally new concept that includes an easy to use, much simplified locking system which ensures absolute control

Power Bead Breaker

Is achieved with the combined use of 2 powerful roller arms with the movement of the wheel chuck Roller arms are also used for mounting and demounting of tires

Power Assist Roller Arm

Power assist roller arm is provided to simplify mount operations essential for large diameter wheels.

Mobile Helper Arm

Air operated, follows the rotation of the tire to help hold bead in place as the tire is being mounted.

Bead Grip Tool

Precision cast steel, with a special plastic coating to prevent damage to aluminum rims.

Control Panel

Ergonomically designed with all movements activated with single hand control.

Model # **TC-5000**

For Wheel Diameters to 57"
Rim Diameters to 30"
Wheel Widths to 22"
