MADE JACKS... THAT LAST

Introducing the newest member of the Zendex Tool family, GoJak[®] Air[™], a revolutionary designed lifting system to replace hydraulic floor jacks that simply don't last.

Powered by compressed air and built for durability. The secret is in

the welded reinforced steel frame and reliable air springs. A host of additional features, including strategically placed grease fittings, will keep GoJak[®] Air[™] running smoothly for years. Stop wasting money on substandard hydraulic floor jacks! Upgrade now and save. GoJak[®] Air[™] - U.S.A. Made Jacks... that LastSM (U.S.A. and International Patents Pending)
