HIGH PERFORMANCE OIL PUMP KITS FOR DRUM AND KEG

From a leader in modern lubrication and equipment design, comes the new generation of high performance oil pumps for industrial, automotive and construction machine servicing.

The patented one part air mechanism reduces empty space within the pump resulting in excellent performance with 60% lower air consumption and Whisper quiet performance.

Fewer parts make service and repair quick and easy. Precision lapped, hardened steel alloy components help to ensure excellent performance over a very long period, even in the harshest operating conditions.
