HEAVY DUTY HOSE REEL

All metal construction with a ribbed steel disk that prevents bending & flexing. Rolled edges for added strength & stability. Compact design allows these to be used in confined spaces with ease.

Features

- Fully enclosed cassetted design makes the spring resistant to corrosion & dirt for longer life
- Heavy duty dual ratchet reduces stress on spring and can lock hose in multiple positions
- Guide Arm adjustable at 45° intervals. Nylon guide rollers reduce drag & wear. Adjustable hose stopper
- Dual guide arm are structurally reinforced strengthened with metal ribs that prevent flexing and bending due to hose pull
- Inlet swivel reduces torque load on power spring for smoother hose movement & durability
- All components are electrostatically powder coated, ensuring a long lasting, durable & attractive finish

MODEL # LR-5013HD

Model	Max Pressure	Inlet/Outlet Thread (NPT)	Hose ID	Hose OD	Hose Length
LR-5013HD	2000 PSI (138 BAR)	1/2"	1/2" (12.7 mm)	7/8" (21.5 mm)	50' (15m)

103 Milvan Drive, Toronto, Ontario, Canada, M9L 1Z7
