## 1:1 RATIO SUCTION & WASTE OIL STUB PUMP

### Model # **SP-22802**

Double acting air operated oil pump for non-corrosive liquids, waste oil etc. For wall or floor installation, the pumps are designed to create maximum vacuum and will not race when there is no liquid in the suction side.

Recommended when you can't control the pumping process or when using suction probes. In other cases use the standard oil pumps.
